

To reinforce our Engineering team we are seeking a

PROCESS ENGINEER

[all genders]

The position is based in Europe (Bicske, Hungary, flexible option to home office), occasional business travel.

Vincotech is the go-to source for power modules that drive motion control, renewable energy, and power supply applications. We work hard to deliver off-the-shelf and made-to-order products to meet all our customers' needs.

Fast and flexible is our motto. Everything we do gets done with the future in mind. This is where you come in.

Join us, a successful market leader and reliable partner, to help build a better tomorrow with sustainable technologies. Let's make an impact together.

Headquartered in Unterhaching near Munich, we also own and operate a plant in Bicske, Hungary, and maintain sales offices around the world. Our global team of 900 people welcomes you to Vincotech, a Mitsubishi Electric Corporation company.

Your skills are in demand. We need you to:

- / Set up, roll out and evolve manufacturing processes
- / Boost productivity and pinpoint opportunities to automate tasks in crucial areas
- / Work with detailed specifications and choose the best concepts to implement new and improved processes
- / Identify and verify critical process controls and preventive measures using 8D, 5W, Ishikawa, and SWOT techniques
- / Define areas to improve quality and coordinate changes with actual costs, yield, failure rates and KPIs in mind
- / Select machine suppliers and calculate return on investment
- / Drive efforts to implement approved and launched projects
- / Draft and actualize work instructions and teach technical regulations
- / Prepare and update production-related documentation in line with the supplier manual, internal guidelines and applicable standards

Your credentials are persuasive. You have:

- / A BSc or MSc in mechatronics or electrical, mechanical or automation engineering
- / Three to five years' experience in a similar position
- / A solid technical background in wire bonding, automation and robotics, AOI systems, dispensing technologies, PLCs and sensors
- / Fluent spoken and written English skills and a firm grasp of technical language
- / A creative, inquisitive outlook paired with a systematic approach to problem solving
- / A collaborative mindset and an affinity for working in cross-functional teams

Join us and take this opportunity to:

- / Be part of a company, which is a key enabler of efficient and affordable energy use everywhere, which is one of the most important megatrends of our society and a necessity for generations to come
- / Be part of a motivating company culture where flat hierarchies and quick decision-making are realities rather than wishful thinking
- / Find long-term career prospects, an attractive salary and very good benefits – all this can be part of your priority package at Vincotech

We welcome your application and look forward to discussing how Vincotech can become your next career choice.
